It is to be regretted that a larger number of taxpayers of Reno were not in attendance at the public meeting last evening at the courthouse. The question of having adequate protection against fire is a momentous one, and every merchant and taxpayer of Reno should consider it worthy of at least one night's consideration. It was shown last evening that the County Commissioners are willing and anxious to afford the desired protection, only requiring an expression of public opinion to act upon. It is not too much to say that Reno's future prosperity hinges upon the question which caused the calling of the meeting. Unless protection is offered property from fire but few men of business principles will risk their capital in the community. Our merchants and business men have for the past few days industriously given expressions to their views and opinions regarding what should be done in the matter, but last evening they showed a wonderful amount of apathy when called upon to appear in public and thus give force to them. However, the result of the meeting is sufficient for the Commissioners to act upon, and there is no doubt but what the requests and suggestions made will be acquiesced in at the proper time.

WHAT is our population? is a question the answer to which, says an exchange, is a matter of interest in itself, but doubly so in view of its direct bearing upon production and consumption. It has now been eight years since the taking of the last census, and the only knowledge which the people have of the population of the United States at this time is what is to be derived from the somewhat varying estimates which statisticians make in a cursory investigation of the subject from their different standpoints. The figures thus given publicly present totals varying from 58,000,000 to 62,000,000. This wide margin is no inconsiderable element, either, in bringing about the confusion of authorities in estimates of the consumption of agricultural products. For instance, supposing the per capita consumption of wheat to be 4 bushels—the generally accepted quantity—a difference of 4,000,000 in the estimates of population would in itself make a difference of nearly 20,000,000 bushels, or over 4 per cent. in calculations as to the quantity of wheat consumed. The work of the census year should put our figure-makers on solid ground again.

MR. POWDERLY has issued an address to the Knights of Labor on the experience gained from the recent strikes. He says: "What combination of hungry men could fight a battle against a combination of dollars? When a workman ceases to earn, his stomach feels it, and unless charity is given, he starves. Lay a gold dollar on a shelf; let it lay a year, or a decade, and at the end it is as bright and as useful as ever; it has lost nothing from idleness—the dollar is supreme. We must control the dollar, curb the power of money and kill the trusts, or they will extort the last cent from labor and kill the people. We must have legislation which will compel individuals and corporations to transact business on a basis of real property—dollars and cents instead of what the world calls paper credit or fictitious values. How can this be done? By whom will it be done?"

THE English and Welsh tinplate workers have decided to take combined action against the American tariff on their goods. A good many persons in this world have made money by minding their own business. The American people are supposed to be running this country—although there has been some room for doubt about that during the last three years—and they claim the right to do it in their own way, without foreign interference.

THE latest sign of Mormon conversion is the prohibition by the church authorities of sales of land to Gentiles. Brigham Young located government lands by wholesale by means of Mormon companies, and the priesthood well understood the importance of holding on to it and barring out a Gentile immigration which may become a controlling political power in the Territory.

A Presidential Nomination.
WASHINGTON, April 10.—The President has sent to the Senate the nomination of Daniel W. Butler of Wisconsin, to be Indian agent at

OVER THE WIRES.

A SENSATIONAL SHOOTING.

An Oakland Coward Takes a Shot at a Convict.
FOLSOM, April 10.—A young man named W. R. Talley, from Oakland, came to interview a prisoner on the early train yesterday morning and asked to see convict Charles Wadleigh, serving a five years' sentence from Oakland for felony. Captain Murphy, after questioning Talley, referred the matter to the Warden. Warden Ault refused to allow Talley to see Wadleigh as the former seemed considerably agitated and claimed that Wadleigh had alienated his wife from him. The Warden decided that he was dangerous. Several visitors were at the prison, and while the line of convicts going to dinner from the quarry were passing in at the gate, Talley suddenly drew a pistol and fired, striking convict Raphael Vidal in the shoulder.
Talley was placed under arrest by order of the Warden and turned over to Constable McComber of Folsom. Talley did not know Wadleigh and mistook Vidal for him. A charge of assault to murder was placed against him by the Warden and he will be prosecuted for his cowardly deed. Vidal has a painful but not dangerous wound.
Four shots were fired. Wadleigh is serving his five years' sentence for seducing the girl whom Talley a few weeks ago married, not knowing of her relation with Wadleigh. Talley's wife refuses to live with him and he accuses Wadleigh of being the cause. The gate-keeper, Thomas Hughes, had a narrow escape, as the shooting was done at the gate.

CONKLING DYING.

A Very Delicate Surgical Operation Performed on Him—No Hope of His Recovery.
NEW YORK, April 9.—The illness of Roscoe Conkling has attained such an alarming character, that the surgeons in attendance determined this afternoon that an operation was the only way to save the life of the ex-Senator. They therefore cut away a portion of the temporal bone and found a secretion of matter which was removed. The operation was a very successful one and gives the patient a chance for his life.
At 7 P. M. Conkling remained unconscious, but the surgeons entertain hope of his recovery now.
The surgical operation performed upon the distinguished patient this evening was a very delicate one. It consisted in the cutting and removal of a part of the temporal bone, an incision being made upon the prominence which may be felt just behind the ear. Beneath this lies the mechanism of the ear, and in cases in which this mechanism becomes involved in serious suppuration, as in this instance, it becomes necessary to make an opening through which the pus may be drawn off. When the region of the inner ear was reached the membrane beneath the bone was cut through, a draining tube was inserted, and about an ounce of pus drained from the head, apparently affording the patient great relief.
At midnight Mr. Conkling was walking up and down his room in a half-delirious condition. He sent for Edward S. Stokes and when he arrived Conkling said to him: "Ed., it is no use, I am gone. I have fought against this for some time. I cannot stand it any longer."
Mr. Stokes in going out saw Dr. Sands at the door. He asked the Doctor if Conkling had any chance. Dr. Sands said: "He may live 48 hours, but I doubt it." Conkling insisted on rising and walking about the room, but does so in delirium, as he has not regained consciousness.

GENERAL BOULANGER.

The Fiery Frenchman Elected to the Chamber of Deputies.
PARIS, April 9.—In the election yesterday, to fill a vacancy in the Chamber of Deputies from the department of the Dordogne, General Boulanger was chosen. He received 59,500 votes, against 35,500 for Clemonie, the Opportunist candidate. The result was unexpected, and has increased the uneasiness of the Conservatives, who declare that the Boulangerist movement is a public danger, and that urgent measures are needed to check it. The Bonapartists assert that the result in the Dordogne proves that the country demands a dissolution of the Chamber of Deputies and a revision of the constitution.
Boulanger refuses to contest for the seat for Dordogne, but his friends forwarded his candidacy.
Le Landerne says that General Boulanger will refuse to accept the seat as he desires to sit for the department of Dunrood only.

Forfeiting Railroad Lands.
WASHINGTON, April 10.—A bill, general in its character, forfeiting all the lands opposite railroad lines not completed within the time specified by law, was agreed to by the House Committee on Pacific Railroads to-day.
Representative Weaver of Iowa says that another deadlock will occur this week if the present one is broken within the next 24 hours. He intends to oppose the passage of the Outhwaite Pacific Railroad bill by dilatory tactics, and says that it will likely result in a deadlock of considerable duration, if there is time within which the bill may be taken up.

A Satisfactory Settlement.
WASHINGTON, April 10.—The Secretary of State has received a cable message from United States Consul Lewis, at Tangier, saying that the recent trouble with the Moroccan Government has been satisfactorily settled. No details are given, but it is stated at the Department that the terms are honorable to this Government.

Bismarck Consents.
BERLIN, April 9.—It is stated to-day that Prince Bismarck has abandoned his opposition to the marriage of Prince Alexander of Battenberg and Princess Victoria, having gained certain other concessions, and that all the differences between the Emperor and Prince Bismarck are now settled.

A Serious Explosion.
HOLMBROOK, A. T., April 10.—The dies of an engine attached to an Atlantic and Pacific freight train blew out at Corriga last night, injuring four men. The fireman and a brakeman are not expected to live. Dr. P. T. Brennan has been sent to the scene of the accident from Winslow.

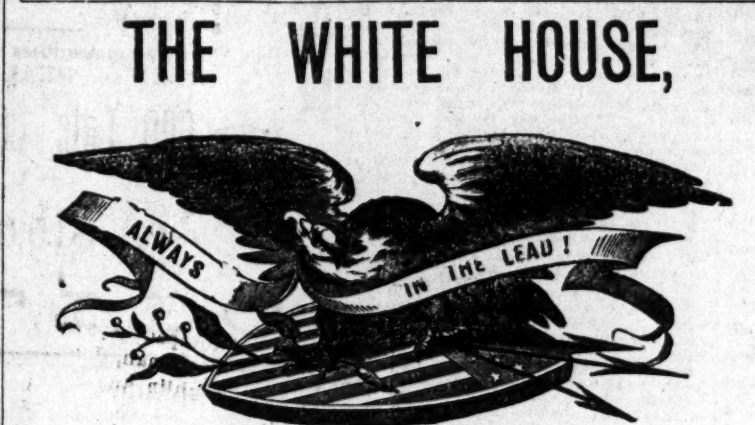

COUNTY COMMISSIONERS.

Tax-payers Protest Against the Acceptance of the Logomarine Bridge.

The Commissioners held a meeting yesterday, a full Board being present, when the following business was transacted:
The Board having examined and accepted the Verdi bridge recently repaired under contract by O. Lonkey, the bills for the same were allowed as follows:
Labor as per contract, \$600; extra material and labor not included in the contract, \$484.42; total, \$1,144.42.
Bills were also allowed to Reno Lumber Yard, lumber, \$98.53; O. Lonkey, indigent supplies, \$20; W. Price, road work, \$18.00; D. Trice, appraisers, G. W. Mape, D. Powell and J. J. Walker, appointed by Judge Bigelow to appraise the value of the bridge across the river at Logomarine's ranch, below Vista, reported the structure worth \$2,000.
Upon the report being received the following protest was filed:
H. H. Beck and W. M. Boardman represent and allege that they are residents and tax-payers of the county of Washoe, and that they hereby object to the purchase of the bridge alleged to have been constructed across the Truckee river at Logomarine's ranch, and the allowance or payment of \$2,000 or any other sum therefor out of any fund or funds of said county. Said objections are based on the following grounds:
1. That said Board failed and refused to advertise any contract for the construction of said bridge as required by law.
2. That said county is not liable for said claim or demand, or any claim or demand for or on account of said bridge, or the construction thereof.
3. That there is no fund out of which said Board is authorized by law to pay said demand or any part thereof.
4. That said Board is not authorized by law to purchase said bridge; that there is no petition of freeholders made or filed for the erection of said bridge, and that the same is not shown to be necessary for the use of said county, and that all proceedings had herein by said Board are contrary to law and void. Respectfully submitted,
H. H. BECK,
W. M. BOARDMAN,
PIERCE EVANS,
District Attorney.
The Board thereupon adjourned subject to the call of the Chairman.

An Unusual Preceding.

To-morrow the preliminary examination of Charles Graf, the slayer of Joseph Shannon, will be held in Justice Young's court-room, and it was confidently expected by District Attorney Evans that the brother of the deceased, Jackson Shannon, and the only eye-witness to the tragedy, would voluntarily appear and give his testimony; but to-day Mr. Evans received the subpoenaed dispatch from P. E. Shannon, the father, which places him in not a very enviable position:

VIRGINIA CITY, April 10.—Cannot appear without subpoena. Letter to District Attorney by mail.

(Signed) P. E. SHANNON.

The causes which led to this action of the father can now be but surmised, but his letter of which he speaks in the dispatch may prove satisfactory. At the present writing, however, the District Attorney has firmly decided upon disqualifying the case, unless the prosecuting witness makes his appearance at the hour set for trial, and has notified the Shannons of his determination.

ACTION AT LAST.

Citizens Discuss the Need of Better Protection Against Fire.

The court-house was comfortably filled last evening with citizens and taxpayers who had assembled for the purpose of taking action in regard to placing the fire department of Reno on a more efficient basis. Organization was effected by the election of Senator H. L. Fish as Chairman and James B. Bloor as Secretary.

Mr. Fish in taking the Chair briefly stated the object of the meeting, and called upon those present for an expression of views and opinions. As for himself he thought the exigencies of the situation demanded that prompt action be taken. "Water and fire are very good servants when controlled, but I know of no greater enemies to humanity when they break loose. The Commissioners have the power of levying a tax for fire purposes, but for some reason or other they have failed to act. They must have felt the need of an efficient fire department, and it was for the purpose of strengthening the backs of the County Commissioners that the meeting had been called. It rested with the assembled taxpayers to say how much money they might be able to expend, what increase of town tax should be levied for fire purposes, buildings, etc. The people cannot expect men to work for a small compensation at fires, and provision should be made looking to a remedy for the existing evil. "If a man is the owner of a building in Reno, he cannot feel safe during the present state of affairs."

T. V. Julien was the next speaker. He said: "I know the difficulties under which the County Commissioners are laboring. Whatever they did do, they wanted to be backed up by public opinion, and in the absence of such they were afraid to act. A paid fire department is out of the question. The town cannot pay it. It would entail an expense of \$3,000 a month. A few men must be paid to take charge of the apparatus and uncouple the hose. I tried it myself the other night. [—I—] I won't do it again. In conclusion, he said the Commissioners wanted an expression of opinion from the taxpayers and then they would act."

H. H. Beck spoke at length of the manner in which fires should be put out, and in a friendly criticism of the manner in which the volunteers had fought the fires of last week, he pointed out the necessity of an organized fire department for Reno was imperative.

He said that had a Washoe zephyr prevailed on either of the two nights of last week when fire was rampant a quarter of a million dollars would have been covered the loss the town would have sustained. He was in favor of an organized fire department, and believed the taxpayers would be willing to foot the bill.

E. F. Mulcahy being called upon, briefly gave his views, as follows: "We are here to submit a proposition to the Board of Commissioners relating to the organizing of a fire department. I believe the volunteer fire department the best on the face of the globe. History proves it. It is for the Commissioners to say how much they can pay every month—say \$300 a month. Organize under the control of the Commissioners; let them designate how many men—15 or 20, as the case may be—shall be employed; fix the salary of the Chief Engineer, Assistant Chief, engineers of both companies, steward, etc., and appropriate a certain sum each month for the proper maintenance of each company; erect engine houses on each side of the track; enroll yourselves as members of the company, and let the members elect their own officers by ballot."

Mr. Julien explained that a fire ordinance covering the ground taken by Mr. Mulcahy had been passed and was a law. The reason a Chief and Assistant had not been elected by the Commissioners was because they might select persons under whom the members would not care to serve. The speaker knew men who would gladly accept the positions if they were given full power to act. They must be supreme, and have no dictators at a fire. If such power were granted he knew men who would accept this position and willingly perform the duties without pay.

Mr. Beck, at this stage offered the following resolution:

Resolved, That in the sense of the citizens here assembled that the County Commissioners be authorized to expend not to exceed the sum of two hundred and fifty dollars per month for the purpose of perfecting our fire department.

The resolution was warmly discussed by J. L. McFarlin, D. Allen, Judge Webster, Geo. W. Mapes, L. C. Folson, C. C. Powell and others. Many of the speakers thought the amount asked for was inadequate, and Judge Webster offered an amendment requesting the Commissioners to further appropriate the sum of \$2,000 for the erection of buildings, etc. Upon being put to a vote the amendment was lost.

George W. Mapes also offered an amendment fixing the amount to be appropriated monthly at \$300, but subsequently withdrew it.

The original motion was then put and carried.

On motion of C. C. Powell a committee of three consisting of J. L. McFarlin, John Fraser and H. J. Thyes was appointed to confer and advise with the Commissioners in regard to the proper manner of procedure in the organization of a fire department, etc.

On motion of Judge Webster the Secretary was instructed to present copies of the resolutions passed to the Board of County Commissioners.

BREVITIES.

Local and General Intelligence.

Trains reported on time to-night.

Lakeview, Oregon, is to have a waterworks.

The death rate on the Comstock is creeping up.

Rio Bonito colony auction sale on the 14th instant.

Spring lamb is being shipped to Virginia City by express.

Weather indication for to-morrow: Slightly warmer; fair weather.

John M. Dorman of the GAZETTE departed for San Francisco last night.

A hot box was the cause of the delay in the arrival of the V. & T. local last night.

Bob Sage, the veteran mixologist, is now the presiding genius of the Monarch saloon bar.

W. T. Burns, an old-time resident of Humboldt is now an Alderman of Bellevue, Idaho.

Michael Nugent, a Virginia City miner, aged 40 years, died of pneumonia Sunday morning.

George Larity, an old Comstocker, died in Virginia City last Saturday of bronchial asthma.

Winnemucca is enjoying a real estate boom. Railroad men are purchasing residence property there.

The Assessor of Humboldt county is assessing stock cattle at \$14 per head and sheep at \$1.50 per head this year.

Attention is called to the advertisement in this issue of Dr. Prentice, the celebrated eye and ear specialist.

Miss Nellie Elsy of Carson, who has been visiting Miss Mamie Hayden, returned home on the noon local to-day.

There will be a special meeting of Amity Lodge, K. of P., to-morrow evening for work in the second and third ranks.

Mrs. Charles Harwood of Long valley, Lassen county, California, is lying quite ill at the residence of Mr. Oakes in this city.

Wallace & Beebe have resumed business and are now located in the Sheldon building on Plaza street, next door to the opera-house.

John O. Gregory the commercial traveler, having satisfactorily averaged his expenses, went below last evening to report at headquarters.

T. R. Rickley, the Republican war-horse of Douglas county, is prominently mentioned for Presidential Elector on the winning ticket.

T. J. Cummings of Surprise valley and Colusa county, California, arrived on this morning's train on his way to his ranches in the northern county.

Frank Fry, an old-timer of Reno, sampled a little to much liquor yesterday and as a consequence now languishes in the cooler not a wiser but a sadder man.

The auction sale of Rio Bonito lands next Saturday is the leading real estate movement now on the tapis in California. Saturday will be a red-letter day in the history of Butte county.

Kobert Jones, the rancher, is being sued in Justice Young's court to-day by Mrs. Jones, the restaurant keeper, for a balance alleged to be due on a financial transaction between the parties at law.

The GAZETTE "retracts" for "placing the stigma of tramp" upon the young man who was so badly lulured by the cars at Verdi Sunday evening. The information that he was such was derived from a person supposed to be in a position to know.

The sufferers by the late fires have settled with the insurance companies, as follows: E. C. Sessions, \$2,000, adjustment \$1,288; Ben Peck, \$250, adjustment \$116; Wallace & Beebe, \$1,000, adjustment \$141.35; J. N. Wallace, \$1,300, adjustment \$1,300; Tim O'Keefe, \$1,000, adjustment \$850.

The Union saloon bar is now one of the handsomest in town. "Daisy" during his visit to San Francisco, purchased magnificent ornaments and glassware for its adornment, and the good taste he displayed in their selection will be at once apparent to the observer.

Two Washoe squaws agreed to disagree last evening and during the scrapping match which ensued one of them lost the index finger of thy left hand by the other bly thug. It was the lacerated member was dressed by Doctor Dawson, and the biter was placed in the cooler to sober up.

Dr. Zangerle, the Comstock physician accused of suppressing cases of small pox he was attending in a professional capacity, magnanimously says he "has no word of censure to write against the Board of Health." It would have been better for the doctor's case had he not written a letter of "apology."

The San Francisco Post says: Everything favorable for an advance in prices—more so, in fact, than at any other time in the history of the Comstock. Mines are on the eve of declaring dividends which have been considered a dead issue by outside dealers, and others can be opened up in ore at any moment.

Herman J. Thyes in attempting to draw a cork from a bottle of beer yesterday, burst the bottle, the fragments therefrom inflicting a severe cut on the inner side of his left leg. The wound bled profusely and it was necessary to call in a physician to attend to the injury. To-day the wound is quite painful and extended pedestrianism is out of the question.

Peter Veine, who was run over by the Southern Pacific at Verdi Sunday and was brought to the county hospital here for treatment, is reported slowly but surely sinking. Amputation of the injured limbs—the right arm and leg—was to have been performed this morning, but owing to the weak condition of the unfortunate man the physicians decided not to make the attempt.

Energy will do almost anything, but it cannot exist if the blood is impure and moves sluggishly in the veins. There is nothing so good for cleansing the blood and imparting energy to the system as Ayer's Sarsaparilla. Price, \$1. Six bottles, \$5. Sold by druggists.

GLENDALE GOSSIP.

New Visitors and Accessions to the Mammoth.

GLENDALE, April 9, 1888.

EDITOR GAZETTE—Quite a serious accident occurred to Section Boss Sullivan of Vista station on Sunday morning last. Mr. Sullivan, accompanied by one of the hands, was driving into Reno, and when opposite Miss Crocker's place a miserable six-bit cur, well known as a vicious "biting cur," with a record—the property of ex-Trustee Whistler—rushed furiously at the team, which became unmanageable, thereby throwing the two occupants of the buggy to the ground, both of whom received serious injuries, Sullivan sustaining bruises and cuts about the head and face of a very painful nature, while his companion was severely injured in the side and other parts of his body.

The population of the hamlet has been increased by the location on the Mapes ranch of Mr. DeWit and family of Wisconsin. This accession from the badger State is cordially welcomed by the old residents.

Quite an addition to our "four-horse crop" of eligible candidates for "jump-year favors" has been made by the arrival of a nephew of Sister Mary Crocker, J. L. Hannah by name. He is from New Brunswick, and a good thrifty "blue nose."

Mrs. Crutcher of Paradise valley is visiting her daughter, Mrs. Larry Derby.

Mrs. Stone, a former resident of the Meadows and sister of Mrs. Thome of Glendale, is over from the citrus belt visiting her sister.

The young ladies of the "Mammoth" are canvassing the feasibility of a general "round up" in the shape of a "jump-year dance" at the Glendale house in the near future.

SWAMP.

A New Fire Company Organized.

The residents of Nob Hill, or more properly speaking, that portion of Reno south of the river, have organized a fire department, and expect to be ready for active service within a short time. The organizers of the company are T. V. Julien, Judge Boushagh, John Hayes, William Coughlin, and the following old-time vets are expected to sign the roll as charter members: H. H. Beck, R. H. Lindsay, Dan Wheeler, M. Ward, W. O. H. Martin, Don Baker and L. J. Flint. They have been promised the hand-engine and 500 feet of hose, and the Commissioners will probably repair the shanty on the lot opposite the court-house and allow them to use it as an engine house and place of meeting. That portion of Reno has been long in need of such an organization, and while they do not expect to accomplish wonders, the members are confident that they can hold any ordinary blaze in check until the arrival of the steamers.

Southern Pacific vs. Union Pacific.

The railroad which is to be constructed from Montague eastward through Modoc county, California, and into Nevada and Idaho, is now an assured fact, says the San Francisco Bulletin, and it will not be many days before a large force of men will be put to work on this branch of the line. This will cut off the Union Pacific railway from securing the extensive stock shipments it procures from that section of land. It is said the Southern Pacific company will build this line through to Kellott, Utah, making connection with their main overland route at that place. The idea is, an official states, to secure Oregon and Washington business which the Union Pacific and Northern Pacific now have full control of. This will practically give the southern Pacific company three overland routes east and will make it the strongest railway corporation in the world.

Eureka.

The motto of California means, I have found it. Only in that land of sunshine, where the orange, lemon, olive, fig and grape bloom and ripen, and attain their highest perfection in mid-winter, are the herbs and gum found, that are used in that pleasant remedy for all throat and lung troubles.

Santa Abie, the ruler of coughs, asthma and consumption, Osburn & Shoemaker have been appointed agents for this valuable California remedy, and sells it under a guarantee at \$1 a bottle. Three for \$2.50.

Try California Cat-R-Cure, the only guaranteed cure for catarrh. One dollar, by mail \$1.10.

DR. PRENTICE.

Returns of the Eminent Specialist.

After an Extended Visit to the Leading Hospitals of Europe.

We are pleased to chronicle the safe arrival and return to America of Dr. Prentice. Less than one year ago the Doctor visited Reno and Virginia City. The remarkable surgical operations and the successful treatment of cases, previously considered incurable, which the Doctor effected while here, are fresh in the memory of all—have gained for him a reputation seldom attained in his profession. It is a well-known fact that Dr. Prentice invariably devotes one year in three in an extended visit to the hospitals of Europe. Notwithstanding that he was having an enormous practice, and earnestly solicited to prolong his stay here, he was reluctantly compelled to shorten his visit and make his customary visit to the Old World. He promised, however, to return, and is now on his way to Nevada. He visited the leading hospitals of Ireland, Scotland, England, Germany, Austria, Belgium, France, the Principality of Monaco, Italy, etc. He assures his many patients that he has spared neither time nor money to acquire all the latest methods and scientific treatment used in the Old World. He will arrive from the East and go direct to Virginia City, where he will treat all cases of strabismus, or cross-eyes, hemorrhoids or piles, stammering and the many ills for which he is renowned in effecting permanent cures. His visit to Virginia City will commence on the 20th of April, for one week, after which he will return to Reno.

FOR.....

BLACKLEG IN CATTLE.

I AM making a tour of this State introducing the above-named Remedy.

It is infallible; I have the proofs I guarantee my work. I treat cattle in herds that are dying, and warrant them for fifty cents a head never to die from the disease.

I have been treating cattle in California for nearly three years successfully, and have sold the Remedy to most of the principal stockmen in the State.

I am prepared to furnish satisfactory proofs of the efficacy of my invention

C. P. R. R. TIMBER LANDS.

NOTICE.

THE CENTRAL PACIFIC RAILROAD
Company hereby gives notice to all
whom it may concern that in future it
will vigorously prosecute all persons who
may cut or cause to be cut, or remove
any timber standing, growing or being
upon any of its lands, and that where
such trespasses are settled out of court by
payment of stumpage, such stumpage
shall be assessed as for punitive damages,
and be fixed at a sum not less than triple
the value of the trees or timber cut or re-
moved.

The company will sell its timber lands
at a fair price where it has title, and where
it has not will enter into contracts for
their sale to mature when it procures title,
but it will not countenance any further
degradations upon its timber, or settle for
such degradations when committed upon
any other basis than as here indicated.

In this behalf, attention is called to the
Federal Statute, which provides (Sec. 261
R. S. U. S.) that if any person shall cut,
or cause to be cut, or aid, or assist,
or be employed in the cutting or in the
removing of trees or timber, standing,
growing or being on the public lands,
every such person shall pay a fine of not
less than triple the value of the trees or
timber so cut or removed, and shall be
imprisoned not exceeding twelve months.

Give Them a Chance!

That is to say, your lungs. Also all your
breathing machinery. Very wonderful
machinery it is. Not only the larger air-
passages, but the thousands of little tubes
and cavities leading from them.

When these are clogged and choked
with matter which ought not to be there,
your lungs cannot half do their work.
And what they do, they cannot do well.
Call it cold, cough, croup, pneumonia,
catarrh, consumption or any of the family
of throat and nose and head and lung ob-
structions, all are bad. All ought to be
got rid of. There is but one sure way to
get rid of them. That is to take Beecher's
German Syrup, which any druggist will
sell you at 75 cents a bottle. Even if every-
thing else has failed you, you may depend
upon.

Why endure sleepless nights, with that

The Mexican Burro.

The burro, or, as he is called in
the United States, the ass, though a
modest and small animal, occupies
a very important place in the in-
dustries of Mexico, as is generally
the case in all mountainous coun-
tries. He is indispensable and can
never be superseded by the horse,
mule or locomotive. Perhaps
when aerial navigation is perfected
his dominions will be somewhat
encroached upon, but even then he
will hold an important place in the
industries of Mexico. Kind by na-
ture, patient to a fault, economical
in his diet, he will eat his allotted
rations of cactus at home, and en-
joy without complaint a modicum
of old rage, paper, etc., when he
comes to town. Burdened with
loads larger than himself he sub-
mits to the cruel whacks of his
master's "baston" without murmur.
He is faithful and true. With un-
erring steps he bears his rider
along precipitous mountain ledges,
and packs ponderous burdens of
gold and silver ore from otherwise
inaccessible mountain heights to
the valleys below. Fruits and agri-
cultural products are brought by
him from "quintas" among ragged
hills to the hungry cities, and with
equal good grace he tugs with his
heavy loads of firewood from
forests high up the mountain sides
to warm the shivering denizens of
the city and hamlet. Large droves
of the ass are used to transport
merchandise from city to village,
and from hacienda to town over
roads to rugged for wagons. With
all his valuable qualities and great
utility, he is worth only \$5 in the
market.—Consular Report.

Breeding From Vicious Stallions
National Live Stock Journal.

It is frequently the case that
farmers make convenience the
main consideration when selecting
a stallion to breed. He may be less
valuable in every respect than one
some distance further away, but
they conclude that it is not worth
the time required to send the
mares the extra distance, and so
take up with the inferior animal.
That such a policy is most unwise
needs no argument with any one
who will consider how a little ex-
tra trouble or expense at the start
may be paid for many times over
in the increased value of the colt
when grown. The question of
disposition is one most often dis-
regarded. While a stallion may
not have been at first ill-tempered,
and viciousness may have been in-
duced by improper handling, in
which case his stock may not in-
herit this, still the safer plan, by all
means, is to select some other
horse to breed from. The value of
a horse is so much reduced by an
angry disposition that special pains
should be taken to avoid all chances
of any inheritance of this kind.
There are many vicious brutes be-
ing kept for service that ought
never to be patronized at all. Fre-
quent mention is made of men be-
ing horribly mangled and killed
by such stallions. A case was re-
cently noted in a Montana paper
where a man named Berry, at
Boise City, was almost killed by a
vicious stallion. It was also stated
that the precaution had been taken
to station a man with a gun near
by with orders to shoot the brute
in case he should attempt to repeat
the performance. If a man's life is
worth anything in that country, it
would be better to geld the horse
at once, and if that does not prove
a remedy, then shoot him. There
is no room for a man-eating horse
anywhere, and human life is too
precious to be endangered for the
sake of what such a brute may
earn.
